

Some career choices
are crystal clear

Nurse Case Manager

At WakeMed, the Case Manager has the freedom to make a difference by approaching the patient's plan of care in unique and creative ways. A variety of complex cases are managed, from the patient's initial plan of care to discharge and re-entry into the community. In a supportive atmosphere, you will serve as a patient/family advocate and be the vital communication link between physician, patient, family, healthcare team and community resources.

- Five (5) years of experience in case management, hospital-based clinical, insurance, home health or skilled nursing facilities
- Bachelor's degree and active RN license required
- Full time, M-F with an occasional weekend shift
